

MONDAY CLUBs

Guitar

Grades 2-5

Rew Starr

Monday, Max 8, \$270

Learn how to play your favorite songs on the guitar. Rew's students practice more than they ever imagined. Her non-traditional casual style offers a fun feel and the minutes fly by. She inspires her students and leaves every lesson inspired as well. Her students are playing their favorite songs quickly and effortlessly in no time. She also teaches songwriting and how music can help you with your daily feelings and emotional state. It has the ability to transform any difficult situation into one of wonder and confidence. Music is the apple of a day...and it is always there for you. Students need to bring their own guitar.

Chess

Grades K -5

Carl Wright

Monday, Max 15 \$260

I am a chess teacher who has been working with children Pre-K through college for over 17 years. I am pleased that some of my students have gone on to do very well in chess. I am ecstatic that almost all of my students have found it has helped them do well in life. There will be general instruction to learn the basic rules/moves of the game and activity based instruction to help all play stronger; as well as apply ideas for more advanced play. All should gain and have fun. I look forward to seeing you and your child Learning through Chess.

CWS LEGOMANIA

Pre-K – 2

ESTHER YANG

Monday, UNLIMITED \$330
(includes \$45 materials fee)

Children can express their creativity by turning their ideas into reality with legos. The lego club is made to get children excited about life. We will educate them about designs, solutions, team work, life skills and to be fearless. They will also learn public speaking skills and present their ideas to their teachers and peers. Esther Yang has run the Karate club, summer camp and ½ day camp at C.W.S. Each student receives their own personal lego kit!!

VOLLEYBALL

Grades 4-5

Kenan katjetzovic (coach K)

Monday Max 8 \$300

Club members will learn the rules and skills of volleyball while building cooperative skills. We will do fun team-building activities as well. Coach K is a certified USA volleyball coach and the CWS Phys Ed Plus gym teacher.

Eco-fun green kids club

Grades 1-3

Karen Kaup

Monday, Max 10,

\$270

Learn about sustainability through fun projects. We will implement eco-awareness into our lives by using creativity & imagination to repurpose household objects and elements from nature. We'll make herbal soaps & cleaners, flower wreaths, leaf/twig art, herb sachets, upcycled decorative jars, holiday decorations, eco-collages, egg carton & cardboard projects, learning about herbs, healthy cooking & juicing, smoothie making, garden tours, water coloring in the park and so much more. Taught by a crafty CWS Eco-mom, Karen!

TUESDAY CLUBS

Math For the Young

Grades Pre-K – 1st

Andrea Reyes

Tuesday, Max 10 \$260

Math games and puzzles for young children- Bingo, Uno Cards and much more. We will use math manipulatives to learn addition and subtraction for problem solving. We will also practice writing numbers and using number lines. Andrea is a Pre-K paraprofessional at The Children's Workshop School

Simply Baking

Grades Pre-K – 2nd

Gary Morston

Tuesday, Max 10 \$270

In this club, children will enjoy the passion of baking both sweet and savory recipes featuring old classic recipes with a twist....baked apples, cornbread, carrot loaf, fresh bread and more... Each child will take home their own cookbook at the end of this club. We will focus on reading recipes and incorporating math & measurement skills into this club. Gary is the CWS early childhood are teacher.

Slide and sweat

Grades 3rd – 5th

patrizia tombesi

Tuesday, Max 10 \$270

Slide and sweat...

A fusion of dance + cardio +gym moves with lots of fun!

Big fun sweat for kids that want to gain endurance, strength and flexibility. Patrizia is a specialist in the Dance & Movement Education with the National Academy of Dance. Come and join the fun.

Sports club

Grades 3rd – 5th

luis lizarido

Tuesday, Max 10 \$260

Give your child the daily physical activity they need. The kids will play kickball, soccer, basketball, tag games and more. Activities will include some stretching exercises and instruction. There will be indoor and outdoor activities. Luis is the Inclusion teacher at CWS.

WEDNESDAY CLUBS

Science club

Grades Pre-K – 2nd

toni capers

Wednesday, Max 10 \$270

HAVE FUN  DOING SCIENCE!!

Think **enriching**, **engaging**, and **engrossing**~ that's the experience your young learner will have with mini-lessons carefully designed to take complicated concepts and principles and make them easily understood with fun hands-on activities, eye-opening explorations and experiments. The mini-lessons will enhance your child's understanding, skills, and attitudes in science. Therefore, the after-school class will complement as well as supplement the classroom science curriculum, which is based on New York State's science standards and benchmarks. The "menu" of lessons will include physical science, life science, chemistry, and earth science.

Take a peek at just some of the entrees on the delicious menu:

- ✚ Fascinating Floating Eggs, Diet Coke vs. Coca-Cola Soda, Steel Wool and Vinegar (What could possibly happen?) ,Create a PARACHUTE, More About Crystals Salt Crystals. Rock Candy Anyone, Briny Shrimp ~This is Your Life!, House of Cards ~Balance & Motion, Let's not forget the mysterious OOBLECK . Microlife: Find out what that is.

Ms. Toni Capers is the Science Teacher at C.W.S.

Hope to see you soon!

learning through games

Grades pre K & K

andrea reyes

Wednesday, Max 10 \$260

"Learning through games," you are invited to have fun learning math. This is done through the use of board games. We will learn sequencing of numbers, patterns of moving forward & backward, learning numbers randomly (odd & even numbers) and learning to add and subtract. We will engage in a variety of games like, monopoly, trouble, zingo, hi ho Cherry O, operation and much more. Andrea works in the Pre-K class with Suma

Cupcake club

Grades 1st & 2nd

Kimberly boodman

Wednesday, Max 8 \$275

Come join the cupcake club and bake a different mini cupcake each week. We will bake all the cupcakes from scratch. You will learn how to level flour, crack eggs, design cupcakes and so much more. Best of all, you get to enjoy a delicious treat each week. We will also make other mini treats such as brownies and doughnuts. If the club fills up, preference will be given to second graders who have not been in the club before. Kimberly is a first and second grade teacher at CWS.

Chorus

Grades 1st – 5th

terry mccade

Wednesday, Max 12 \$270

Terry teaches music at CWS and works with Turtle Bay Music School. There is nothing more joyous than singing and nothing more glorious than the sound of children's voices. In chorus, the students will learn vocal technique, work on ear training, solfege and some sight singing and theory. The repertoire will cover everything from traditional music, pop songs, and world music. All of these skills will prepare the children for musical independence and support their instrument studies.

Sewing club

Grades 2nd – 5th

alice banjo

Wednesday, Max 12 \$270

Learn everything you need to know about sewing. We will explore hand and machine sewing. Students will learn how to design a project and complete it. It will be a fun time for everyone to design their own creations. Alice is a proud parent of a CWS Alumni and has a degree in Fashion Design from FIT. If needed she will have an assistant Arianna also a student from FIT.

Lego ROBOTICS club

Grades 3rd – 5th

jeff symanski

Wednesday, Max 12 \$270

The Lego Robotics Club is for any level of Lego builders. Beginning Lego Builders and the more advanced Lego engineers are welcomed. If you want to learn how to create a cool Lego game or toy and program it with a laptop to do fun things such as kick a small soccer ball or spin a top then this is the club for you. If you want to learn some of the physics and science of how machines and robots work, then this is the club for you. Or if you just want to create a fun and silly basic robot car while visiting with friends, then this is the club for you.

THURSDAY CLUBs

Running Club

Grades 3rd – 5th

luis lizarido

Thursday, Max 10 \$260

This club will focus on stretching, sprinting, and jogging exercises. We will be building stamina for long distance runs. Students must wear sneakers. Luis is the inclusion teacher at CWS

Soccer club

Grades K-2nd

Daniel gleeson

Thursday, Max 12 \$270

The objective of this soccer club is that the children will learn and develop all elementary movement skills by building overall motor skills.

We will focus on individual and small group play as it is essential for both exposure to ball control and learning at their own pace. There will be an emphasis on letting the children play. Prior to a player being expected to learn ball skills he must first be in control of the body. Growth in this area is a long-term evolution, thus, it is imperative for children to acquire a base of general balance, coordination and agility before soccer skills. In order to get them to control the ball we must first get them to control their bodies. The fascination for the ball, the desire to master it and the thrill of scoring goals can provide a launching pad into a lifetime of soccer participation. The joy and skills of the game will be nurtured by encouraging freedom of expression and organizing their play in small groups through a range of fun activities to promote dribbling, shooting, and passing. Daniel is the parent of Penny and Desmond

FOOTBALL/FOOTBALL (SOCCER)

Grades 3rd-5th

JASON FORREST

Thursday, Max 12 \$270

Kids will be taken to the East Side parks for a combination of soccer and two handed touch football. Children will be taught fundamentals through drills and scrimmages. Kids should be ready to RUN!! Cleats recommended. Jerseys will be provided.

Creative block building

Grades Pre-K – 1st

gary morston

Thursday, Max 10 \$260

Using big blocks, classroom blocks and table blocks, children will explore building and creating structures that they will be able to play in. Dramatic play will also be included. Come and put your imagination to work!!!! We will also introduce math concepts and measurement. Gary is the Art teacher at CWS

dance improvisation

Grades 1st – 5th

patrizia tombesi

Thursday, Max 12 \$270

The students will learn various techniques to create their own steps and movement while guided to understand the various aspects of a contemporary dance work. Patrizia is a specialist in the Dance & Movement Education with the National Academy of Dance and a degree in early childhood education.

FRIDAY CLUBs

Creative movement

Grades Pre-K & K

patrizia tombesi

Friday, Max 10 \$270

After last year's success, I will come back with more creativity than ever....

The focus will be predominantly on students motor skills. Walking, crawling, rolling, jumping, under, over, in, out, legato, staccato, slow, fast, forward and back.

Pre-K & K will investigate the creative aspect of body language and will start to create mini improvisations. Patrizia is a former contemporary dancer, toured and performed overseas and created various site as well. She has a degree in both early childhood and dance education and is presently a Pilates instructor

science club

Grades 3 – 5th

toni capers

Friday, Max 10 \$270
